PFAS EXPOSURE ASSESSMENT CHALLENGES: ENVIRONMENTAL AND CONSUMER PRODUCT SAFETY
A JOINT BREAKFAST MEETING WITH YOUNG/SOMMER LLC
PRESENTERS: TRAVIS KLINE AND SETH KELLOGG OF GEOSYNTEC CONSULTANTS, INC.

The vast majority of efforts to characterize PFAS exposure have focused on drinking water ingestion. Methods are in development to help characterize the nature and extent of exposures via additional pathways. As analytical methods develop, the limiting factors to inform effective characterization of current and potential future conditions become the lack of understanding regarding the driving pathways of concern and their significance based on the absence of applicable toxicity criteria. This presentation characterizes the relative expected ranking of PFAS concern the options for development of provisional toxicity factors, and methods to focus investigation needs, reduce project expenditures and inform defensible site and risk management.

Red Lion Hotel Albany, in the Pheonix Ballroom (205 Wolf Road Albany, NY 12205)
Friday, December 6th – Breakfast Buffet @ 7:30 AM and the Program Begins Promptly @ 8:00 AM

RSVP through December 4th by registering on-line at http://awmaneny.org/ (preferred) or by emailing Andrea Simmons, Eastern NY AWMA Secretary, awmaneny@gmail.com

Students $10, Members $15, Guests $15
